

HOLIDAYPASS – Kiens

HOLIDAYPASS Chienes

After checking-in into the accommodation the HOLIDAYPASS is at every guest's disposal, if the booked accommodation is member of the Tourist office Chienes. Guests who are in possession of the HOLIDAYPASS are authorized to use the *entire public transportation net in South Tyrol (buses, regional trains, ascending facilities) including the following services and reductions.

Sustainable mobility is an issue that is playing an increasingly important role in tourism. The holiday region Gitschberg Jochtal has been working together with the surrounding tourism associations for a long time and already enables many guests to use the mountain railways Gitschberg and Jochtal. In cooperation with Gitschberg Jochtal AG, we have succeeded in offering this opportunity to our guests as well. With the Mobilcard the guests from Kiens already have the possibility to use the train connection to Mühlbach and the cable car Mühlbach Meransen free of charge. The additional integration of the gondolas completes the offer for guests. This year the lift facilities run from 25th May to 02nd November.
